Analysis of the Case :

The case belonged to mixed miasmatic. Dirtiness, hopelessness, offensiveness in discharge, aversion to bath and Pruritis indicate the Sycotic miasm. But she was first prescribed anti-psoric medicine.

Treatment :

25.07.1996 .

Psorinum – LM/2

One medicated globules No. 10 mixed in 60ml of distilled water. Add 15-20 drops of alcohol for preservation. The phial divided into 8 equal doses. After 10 succussions, one dose to be mixed in 3/4th glass of water. From that solution, only two teaspoons was taken in the morning in empty stomach. One dose daily in the morning.

Advised to report after one week.

03.08.1996 .

Improvement observed. Eight times stool from morning. Abdominal pain before stool. Watery stool. Less in offensiveness. Tongue was pale. Weakness and numbness of extremities.

Placebo. Mood of preparation and administration was same. Two doses daily.

05.08.1996 .

Last two days no stool. One time today. Hard. No bed smell. Appetite increased. Excess in thirst. Tongue pale.

Placebo. Two doses daily.

10.08.1996 .

Fever since last two days. That time 99 0 F. Appetite and thirst less. Aching and numbness in extremities. Stool normal. Wetted in rain.

Rhus Toxicodendron – LM/2 . Two doses in 30 ml D.W. One dose daily for two days.

10.08.1996 .

Remission of fever, but feverish feeling in 7pm to midnight . No problem in morning. Burning in back and chest. Dry itching in the body. Severe in noon .

Placebo. 6 doses in 60 ml D.W. One doses daily.

19.08.1996 .

Slight temperature in the noon and last for 2-3 hours. Slight body ache. Others normal.

Rhus Toxicodendron – LM/3. 6 doses in 60 ml of D.W. Two doses daily.

22.08.1996 .
